Tape & Label Cores, Protective Packaging and
Heavy Duty Cores!*

CM-14

Western Container, from Beloit, Wisconsin, has launched a new addition to their production capabilities. The CM-14 has recently been added to the manufacturing line to meet the needs of large precision re-cutting. The CM-14 is a heavy-duty automatic core cutter designed to cut cores with large internal diameters with ease and speed.

FEATURES

- *90" parent core length*
- *12" to 24" internal diameter capability*
- *.010" cutcore width tolerance*
- *5 minute core size conversion*
- *Clean, square burr-free cuts*
